

EMERGENCY KIT

MUST HAVE ITEMS FOR
WEDDING PHOTOGRAPHERS

NICOLE WEEKS PHOTOGRAPHY

Hi! I'm Nicole.

A wedding photographer, educator and former second shooter of 7 years. I've second shot almost 100 weddings with a variety of photographers and went from making \$175 per wedding to over \$500 with a fully booked second shooting calendar. Over the years I've added a bunch of items to my emergency kit. I've used it many times during weddings to serve the couple and the main photographer to solve any issues that come up so the couple can remain stress free on their wedding day!

EMERGENCY KIT LIST

These items are a must to add into your emergency kit for wedding days. Couples will be blown away at how prepared you are and super thankful you'll be able to solve whatever problem they are faced with!
